

# Checklist migration perspective

## Use

This checklist follows the structure of the list for quality criteria. It enables you to test your migration sensitivity. It also identifies areas of your work where a migration approach can be introduced. Thus it is applicable in particular to the projects which are not (only) focused specifically on men and women with migration background.

If you use this checklist periodically, if you set quality objectives for the domains which are to be improved and implement corresponding measures, you will be able to evaluate and document your progress in the implementation of the migration approach.

## Test questions<sup>1</sup>

	yes	no
<b>1. Basics of Health Promotion</b>		
1.1 <i>Health equity:</i> Does the planned intervention promote health equity for the migrant population?	<input type="checkbox"/>	<input type="checkbox"/>
1.4 <i>Participation of principal actors in the settings:</i> Are migrants involved in decision taking in the different phases of the project?	<input type="checkbox"/>	<input type="checkbox"/>
<b>2. Assessment</b>		
2.1 <i>Demonstration of the need for the project:</i> Do migrant participants / beneficiaries have the same needs as autochthon participants / beneficiaries or do they have specific needs? Have their needs been researched and documented?	<input type="checkbox"/>	<input type="checkbox"/>
2.2 <i>Needs of stakeholders and target groups:</i> Are the needs of migrants adequately considered when planning the implementation of the measures?	<input type="checkbox"/>	<input type="checkbox"/>
2.5 <i>Learning from past projects:</i> Have you taken into consideration the results and experiences of other projects which – whether specifically or not- aim at migrants and could inspire your approach?	<input type="checkbox"/>	<input type="checkbox"/>
<b>3. Project planning</b>		
3.2 <i>Justification for proposed procedures:</i> When planning the project’s methodology, has it been considered if and when migrant-specific methods are needed? (Do interventions adequately take into consideration the linguistic difficulties, the migratory context, the view on health, etc?)	<input type="checkbox"/>	<input type="checkbox"/>
3.3 <i>Availability of necessary resources:</i> Have you recorded the different types of resources of migrants, which could be of service to your project?	<input type="checkbox"/>	<input type="checkbox"/>
<b>4. Project organization</b>		
4.1 <i>Adequate project structure:</i> Are migrants adequately represented in the project organization (project team, advisory/steering groups)?	<input type="checkbox"/>	<input type="checkbox"/>
4.2 <i>Qualifications and requirements:</i> If necessary, have measures been taken to ensure that the migrant’s perspective regarding the topic is known to the project team?	<input type="checkbox"/>	<input type="checkbox"/>
4.3 <i>Goal-oriented networking:</i> Have you considered the different options for collaboration synergies with the migrant networks?	<input type="checkbox"/>	<input type="checkbox"/>

<sup>1</sup> The classification refers to the list of quality criteria for projects (<http://www.quint-essenz.ch/en/dimensions/>)
